VELLEMAN NV.

Legen Heirweg, 33

9890 Gavere

Belgium.

Our stainless-steel precision tweezers are the essential tool for anyone requiring accuracy and control in delicate tasks. With an extremely sharp point, you can easily grasp and place even the tiniest components. This tweezer is not only non-magnetic but also acid-resistant and rust-resistant, making it ideal for laboratory work, electronics, jewellery making, and other fine applications. With its durable and reliable design, this precision tweezer is a must-have for hobbyists and professionals striving for perfection.
