(Product identification)

**Manufactured / imported by:**

VELLEMAN NV.

Legen Heirweg, 33

9890 Gavere

Belgium.

When soldering and working on electronic devices, a clean and safe work environment is more important than one might think. Velleman offers a large choice of high-quality ESD accessories for the DIYer, hobbyist and professional. Combine this grounding plug with an antistatic wristband or grounding cable and antistatic soldering mat to create an ESD-safe environment for soldering. The grounding plug features a European E/F type grounding (France/Germany).
